Ever since he was 10 years old, Tyler began receiving intuitive mental images with the foretelling of his grandmother's death and has continued to develop his gift of mediumship and further turn it into a career. Intimate communication with a deceased loved one evolved into "reading" classmates, and Tyler soon found himself the victim of schoolyard bullying. Between speaking to the dead and predicting people's futures, and juggling math homework and gym class, life for a teenage medium in a small town became anything but easy.

With the goal of sharing his gift with as many people as possible in hopes of healing, he relocated and brought his skills to Hollywood shortly after becoming the most sought-after

clairvoyant giving jaw-dropping private readings to A-list celebrities including, Ellen DeGeneres, Sophia Vergara, Howie Mendel, Jim Parsons, RuPaul, Allison Janney, Kris Jenner and Kim Kardashian West to name a few. With his rational manner and comforting presentation of the information he receives from the other side, he has been able to turn even the biggest skeptics into believers. Tyler is also a best-selling author with his first book, *Between Two Worlds – Lessons From The Other Side*. His second book, *Here and Hereafter*, was released March 29th, 2022.

With over 300,000 requests for readings from his followers, Tyler decided that a Live Show Tour would be the most effective way to reach even more of his ever-expanding audience in need of healing. During his life-changing show *An Evening of Hope and Healing*, Tyler sets out to share his extraordinary talents with audiences on his national tour by explaining how he communicates with the other side and how those experiences have guided him to live a happier and healthier life. The show includes stories from Tyler himself about his journey to Hollywood and detailed retellings of readings that have shaped Tyler's individual understanding of the other side. Plus, audience members get the chance of their own live reading and having their questions answered, moving many to tears with the proof that *"Our loved ones never really leave us."*
