

EXPLORING STORY STRUCTURE THROUGH TABLEAU

Recommended Grades:

Grades K-2 | Grades 3-5 | Grades 5-8 | Grades 9-12

Using the art of tableau, students will get the text on its feet by creating living pictures of different plot points with their bodies. Tableau engages students by expressing their knowledge of the text in a new way and analyzes different literary elements. Recommended for all classrooms, but especially those with a high population of ELL students as tableau removes the need for verbal and written language.

Topics Covered: Key Details of a Text, Retelling Story, Plot and Story Structure, Compare/Contrast, Character Development, Impact of Structure
