

LIGHTS UP WITH SHADOW PUPPETS!

Recommended Grades:

Grades K-2 | Grades 3-6

Discover the phenomenon of shadow puppet shows! How does it work and how it is done? Students will explore the properties of light and how it interacts with various materials. Using that knowledge and past learnings of various organisms and their systems, students will create shadow puppets for a story of their creation to share with the class!

Topics Covered:

Grades K-2: Light, Shadow and Parts of the Body

Grades 3-6: Light, Energy, and the Skeletal System
